

# MyCat

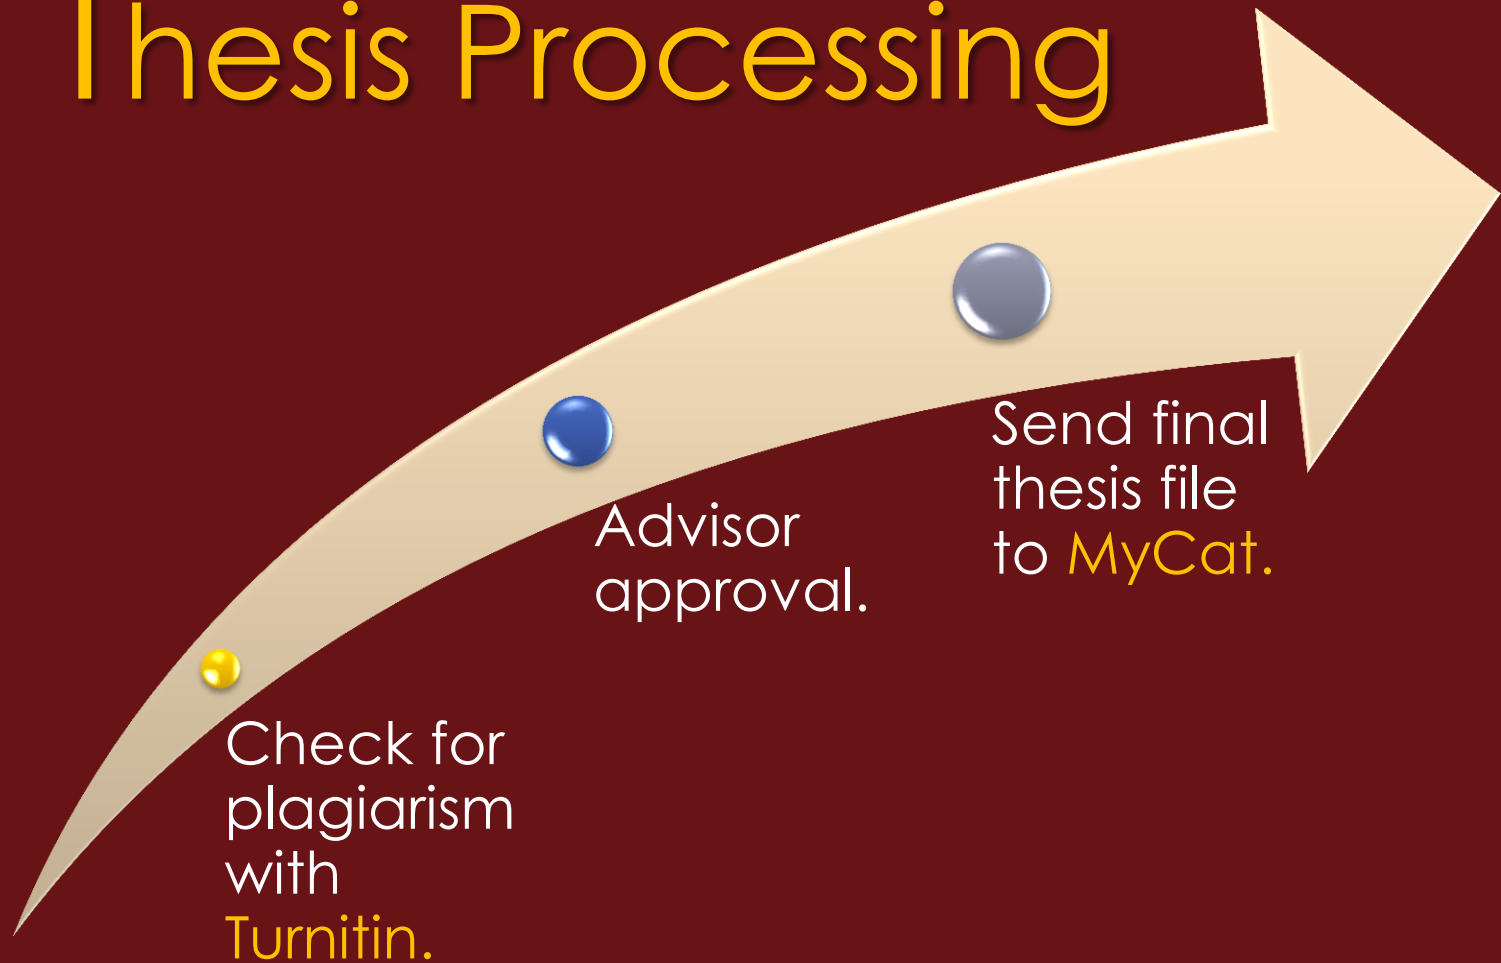

Management System for Copyright,  
Academic Work, and Thesis.

**MyCat** is a thesis management system that integrates processes. It can help draft a thesis, check it using CopyCat (Copyright, Academic Work and Thesis-checking system), and store the completed version.

MyCat lacks enough English-language databases for theses in English. Review a copy of such theses with **Turnitin**. Repeat the process after the dissertation is complete.

Upload the finished thesis and sign in to MyCat, adding it to the database.

# Thesis Processing

# Uploading

---

completed thesis to MyCat:

Browsers supported by the MyCat system:

Google Chrome

Mozilla Firefox.

# STEP 1

## Receiving an access email to the MyCat system.

To Manee Meejai

Administrator MyCat has added your account to the system. You may use the ID code 1005003 or email chutatip@tu.ac.th for access to the system. Use the latest password to access the link below, by copying it into the address bar of your Google Chrome or Mozilla Firefox browser.

### 2. Click on the link

<http://mycat.library.tu.ac.th/activate.php?id=1005003&code=BBdMK1fv2j>

Identification code: **BBdMK1fv2j** 1. Copy identification code

Password length must be from 8 to 20 characters.

MyCat Assistant

For any questions, please contact tumycat@tu.ac.th

# STEP 2

Create a password for your ID code.

## Setting a password

ID code :

Send by E-mail.

Create password :

from 8 to 20 characters.

Confirm password :

from 8 to 20 characters.

Submit

Cancel

# STEP 3

This screen should appear after a password is created.

## Setting a password

✓ You have successfully created a password. To access the MyCat system, [Click here](#)
